

Centre for Energy Regulation

Online Learning Environment and Tools (OLET)

The Center for Energy Regulation (CER) has developed the Online Learning Environment and Tools (OLET), an online learning platform, to assist delivery of capacity building on regulatory and policy aspects of the power/energy sector. It is an in-house initiative led by CER at Department of Industrial and Management Engineering (IME) at IIT Kanpur. The online programs hosted at the platform would lead to structured Regulatory Certification Program and the eMaster's Program on "Power Sector Regulation, Economics and Management" addressing the capacity building needs of the sector, and also enhancing the educational and research outreach.

OLET Features

The platform is user-friendly and integrated with Online Discussion Forum (ODF) that would help the participants to discuss the topics covered under the ongoing programs.

Apart from hosting the pre-recorded sessions, the platform would host recording of the live sessions for participants to complete the program curriculum. The platform is accessed through CER's web-portal and CER's App.

Regulatory Certification Program hosted on OLET Platform

The screenshot displays the CER OLET Platform interface. At the top, the CER logo and name are shown, along with the Department of Industrial and Management Engineering (IME) at IIT Kanpur. A navigation bar includes links for Home, About us, Discussion Forum, Newsletter, Publications, CER Events, Regulatory Blog, ERC Hub, Contact us, Careers, and a user profile for Abhay Awasthi. The main section is titled "Regulatory Certification Program (RCP)" and features a grid of course cards. These cards include "Power Sector Regulation: Theory and Practice" (with a sub-card for "Fundamentals of Power Sector Regulation"), "Power Market Economics and Operation" (with a sub-card for "Economics of Power Markets"), and "Renewable Energy: Economics, Policy and Regulation" (with sub-cards for "Fundamentals of Renewable Energy: Economics, Policy and Regulation" and "Advance Topics on Renewable Energy: Economics, Policy and Regulation"). A sidebar on the right contains a "CER Blog" with various articles. The bottom left corner shows a "Discussion Forum" section with a Google Play button.
